

Voila!

My name is U, a humble vaudevillian visage who has vowed to warn the vox populi that it is verily certain that villainous vermin in the White House will attempt to vilify and violate various countries' sovereignty by venomous lies and vile violence. We are all victimized by such viperous vitriol and call on the people to be vigilant ~ a vanguard of valor and virtue to vanquish these venal vipers and their vulpine lies by exposing the non-veracity of such verbiage."

Verily, this votive is not in vain. You valorous citizens will be vindicated by such volition, thus vouchsafing the values of our veterans and validating our freedom.

Be Victorious! ~ U
