

11 REMARKABLE FACTS ABOUT 9/11

2) Fire has **never** — prior to or after 9/11 — caused any large steel-frame high-rise to collapse. The sudden, vertical, explosive, and total collapse of the Twin Towers at near free-fall speed can be explained **only** by controlled demolition.

3) Many fragments of unignited **nano-thermite** — an explosive manufactured only in sophisticated defense labs — were discovered by an international team of scientists in dust samples collected near the WTC on or just after 9/11.

4) The WTC steel, which if fully examined could have revealed the effects of explosives, was quickly shipped overseas and melted down. This was an unprecedented violation of federal crime scene laws.

5) Whenever contact is lost with any airplane, fighter jets routinely take to the air to investigate. This commonly occurs about 100 times per year in well under **20 minutes**. But on 9/11 nearly **two hours** passed with no interceptions.

6) Unidentified insiders made millions on the stocks of American and United Airlines and those of other corporations that were impacted by the attacks. These “put option” bets were made just **prior** to 9/11.

7) The Secret Service broke established protocols by allowing President Bush to remain in a well-publicized classroom “photo op” long **after** it was known that the United States was under attack and that he might well be a prime target.

8) In September of 2000, a group of neocon hawks, many of whom would later become key officials in the Bush administration, wrote that their proposed massive military buildup would proceed slowly “absent some catastrophic and catalyzing event — like a **new Pearl Harbor**.”

9) Some of the alleged 9/11 “suicide hijackers” are **still alive and well**, according to the BBC and *The Guardian*. At least five of the alleged hijackers may have trained at U.S. military bases, as reported in *Newsweek* and other sources.

10) The Bush administration resisted the formation of the 9/11 Commission for **441 days**. Similar investigations, such as those for Pearl Harbor, the JFK assassination, and the space shuttle disasters, all started in about one week.

11) “The Jersey Girls” — four courageous 9/11 widows — finally forced the 9/11 Commission into existence and presented many questions, **most** of which were ignored. Under the leadership of Bush administration insider Philip Zelikow, the final report failed to address **any** of the evidence pointing to official complicity.
