“**PENTAGON PLANE PUZZLE**”, by filmmaker and pioneering 9/11 activist **Ken Jenkins**, is the first film made by members of the 9/11 truth movement to apply the scientific method to the long debated question of whether or not Flight 77, a 757 airliner, hit the Pentagon.

DAVID CHANDLER is a retired teacher of physics and mathematics. His challenge to NIST resulted in their admitting to the partial free fall of WTC 7. He is currently on the board of Scientists for 9/11 Truth. 911speakout.org

MICKEY HUFF & PETER PHILLIPS represent **Project Censored**, a media research, education, and advocacy initiative which publishes news stories omitted or censored by other media sources. ProjectCensored.org

“**A VERY HEAVY AGENDA**” by filmmaker and journalist **Robbie Martin** explores the warmongering neoconservative Kagan family, particularly Robert Kagan, PNAC co-founder, author, and husband of US Assistant Secretary of State for Eurasian Affairs, Victoria Nuland, who was instrumental in creating tensions that set off the Ukrainian crisis.
